ON-FILE NSC RELEASE
INSTRUCTIONS APPLY

TO: Ambassador Bruce

FROM: Henry A. Kissinger

1. The long Chinese silence on the date for my visit begins to border on the discourteous, especially since we requested an early reply in view of my already tight schedule in September.
2. I wonder whether if we have heard nothing by early next week, it would not be appropriate to inform them that September is no longer a convenient period and that they should propose a later date when they would consider that discussions would be useful.
3. Would appreciate your views as quickly as possible.

Warm regards.
